Education

M.S. Data Science and Analytics (Computing and Decision Analytics) Jan 2025 – Dec 2026
Arizona State University, Tempe, Az **4.00 GPA**
Courses: *Statistical Machine Learning, Data Processing at Scale, Statistics for Data Analysts, Optimization*

B.Tech. Computer Science Aug 2016 – Jun 2020
Dr. B.C. Roy Engineering College, West Bengal, India **3.5 GPA**

Technical Skills

Languages & Libraries: Python (NumPy, pandas, scikit-learn), SQL, R; Object-Oriented Programming

Machine Learning: Regression, Classification, Clustering, XGBoost, Time-Series (SARIMAX), Model Evaluation

Deployment & MLOps: Docker, Kubernetes, Linux, Git, CI/CD, REST APIs, Azure, AWS, GCP, pytest

AI & Responsible AI: LLM Agents, RAG, LangGraph, OpenAI API, SHAP Explainability, Hallucination Checks

Data & Visualization: ETL Pipelines, Data Cleaning, PostgreSQL, Airflow, Tableau, Power BI, Excel

Professional Experience

Rubrik | Sales Engineer Intern | Austin, TX Jun 2026 – Aug 2026

- Owned deployments for **7+ enterprise customers**, triaging failures through log analysis with product engineering; **4+ customers** advanced to the next deal stage.
- Translated requirements from **20+ customer calls across 8+ industries** into designs and **15+ demos**.

Arizona State University | Business Operations Analyst (Part-time) | Tempe, AZ Mar 2026 – Present

- Created Excel dashboards tracking **25+ purchase orders and invoices per month** across **7+ departments**, and reconcile records weekly and monthly to resolve discrepancies.

Accenture | Packaged App Development Analyst | Bengaluru, India Apr 2023 – Dec 2024

- Developed payment processing automation on daily and monthly schedules, verified with automated test scripts.
- Administered the automation control room (scheduling, credentials, workflows) using SAP automation, IQ Bot, and SQL.
- Partnered with QA and developers to enhance flagship products, generating **$150K+ in additional revenue**.

DXC Technology | Professional 1 Software Engineer | Bengaluru, India Jul 2020 – Mar 2023

- Engineered and operated Python/SQL data pipelines for **2.5+ years** on **Docker** and **Kubernetes**, cleaning and transforming multi-source data for analytics.
- Debugged production incidents by analyzing logs, and implemented validation checks that stopped bad records early.
- Built SQL dashboards tracking SLA and KPI metrics, giving operations teams visibility into pipeline and system health.

Projects

Valley Fever Outbreak Forecasting | *Python, pandas, XGBoost, SARIMAX, SHAP* | *ASU Capstone, 2026*

- Integrated **4 public health and environmental data sources** (**80K+** records) into **50+ engineered features**.
- Compared SARIMAX and XGBoost models, reaching about **15% MAPE**, **25% better** than a seasonal baseline.
- Explained key drivers with SHAP, making forecasts transparent for public health stakeholders.

Customer Churn Prediction | *Python, scikit-learn, XGBoost, pandas* | GitHub

- Benchmarked 3 models on **7,043 customers**, reaching **80.6% accuracy** with recall-based evaluation.

SE Copilot: Multi-Agent LLM System | *Python, LangGraph, OpenAI API, RAG, REST API*

- Shipped **3 LLM agents** with a router, Salesforce REST API, RAG, and hallucination checks; adopted by **5+ engineers**.

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900); Automation Anywhere Certified Advanced RPA Professional; Certified ScrumMaster (CSM); Oracle OCI Foundations; CodePath Foundations of AI Engineering.

Achievements & Leadership

- **Quarterly Champ Award** at DXC; **promoted within 1.8 years**; **Team Leader** for the Belron client account.
- **President**, Indian Students Association at ASU; **Member**, AI Society and GDSC; LeetCode/NeetCode repo (GitHub).
